

# Counting The Days

## Guano Apes

When you'RE down putting nothing but a mask  
And you GET UP and you're running out of blast  
When you picked OUT A FEATHER WRITE a word  
with the debts and you set it down But now I'm into  
Like a clock...has been around  
what...the town  
...  
but now  
Counting the days to rearrange  
Beyond the surface  
We're meant to pay  
counting the days to rearrange  
and you won't suffer  
we're still the same When you're...spreading from the past  
Like you haven't got the running on your ways  
when you're a bit loaded digging UP the dirt and you had...  
but now I'm into  
...on the ground  
and you're dizzy, YOU'RE AD NAUSEAM AND foul  
...BLEEDING ALL DOWN  
but now Counting the days to rearrange  
Beyond the surface  
We're meant to pay  
Counting the days to rearrange  
And you won't suffer  
We're still the same I'm tired of...the lies  
Say you don't wannabe and so do I  
Where'S the rap and respect  
speaks to reach all the sides  
where's the goddess bless of justify Counting the days to rearrange  
Beyond the surface  
We're meant to pay  
Counting the days to rearrange  
And you won't suffer  
We're still the same I'm tired of...the lies  
Say you don't wannabe and so do I  
Where'S the rap and respect  
speaks to reach all the sides  
where's the goddess bless of justify
