# Screamin'

## Netta Brielle

I have never seen anythin' else quite like you
You look at me, vacantly empty, just stare right through
I'm such a sad, sad sight
It's such a cold, cold night
I'm screamin' on the top of the world
Can you hear me?
I am screamin' from the top of the world
Can you hear me?
Don't you know that
I am screamin' from the top of the world?
Don't you feel me?
I'll scream till I'm bleedin'
And I will crush through the ceilin'
No, you don't know what I'm feelin'
And that I'm dyin', tryin', tryin'
Can you hear me?
I'm screamin' from the top of the world
Can you hear me?
I've analyzed everythin', anythin' that you do
I am physically, mentally over obsessed with you
I'm such a sad, sad sight
It's such a cold, cold night
I'm screamin' on the top of the world
Can you hear me?
I am screamin' from the top of the world
Can you hear me?
Don't you know that
I am screamin' from the top of the world?
Don't you feel me?
I'll scream till I'm bleedin'
And I will crush through the ceilin'
No, you don't know what I'm feelin'
And that I'm dyin', tryin', tryin'
Can you hear me?
I am screamin' from the top of the world
Can you hear me?
And I'm so close to what I've dreamed of
But it hurts so, yeah, it hurts so
Top of the world, top of the world

I'm screamin' on the top of the world
Top of the world, top of the world
I'm screamin' on the top of the world
But I don't think I can be heard by you
You, you, you
Could be you never will, could be I have to kill
This dream that makes me ill
I'm screamin' on the top of the world
Can you hear me?
I am screamin' from the top of the world
Can you hear me?
Don't you know that
I am screamin' from the top of the world?
Don't you feel me?
I'll scream till I'm bleedin'
And I will crush through the ceilin'
No, you don't know what I'm feelin'
And that I'm dyin', tryin', tryin'
Can you hear me?
I am screamin' from the top of the world
Can you hear me?
