

# Ain't That Just Like a Woman

**Rhett Akins**

    Closet full of dresses and not a thing to wear  
    No matter the occasion can't do nothin' with her hair  
    At anytime she'd change her mind and she likes to change mine too  
Somehow she finds a way to make me see her point of viewAin't that just like a woman? She can be a friend  
    Be a lover go from one extreme to the other  
    Call it intuition, knows when to talk and when to listen  
    She's always there when I need her the most  
    Ain't that just like a woman?She forgets her lipstick in the pocket of my coat  
    Says I'm neither drivin' way too fast or goin' way too slow  
    She believes in true love and the magic of romance  
Candlelight and roses and slow, slow danceAin't that just like a woman? She can be a friend  
    Be a lover go from one extreme to the other  
    Call it intuition, knows when to talk and when to listen  
    She's always there when I need her the most  
    Ain't that just like a woman?Call it intuition, knows when to talk and when to listen  
    She's always there when I need her the most  
    Ain't that just like a woman? Ain't that just like a woman?
