

Goodbye My Friends Dead and Living

Stampead

hereâ€™s to you my friends dead and living
those of you who left me behind
the month of May has never brought me sunshine
itâ€™s been a year and Iâ€™ve lost much more than time

I thought about the future
thought about the past
thought about a lover
but I guess she couldnâ€™t last

so goodbye my friends, dead and living

hereâ€™s to you my friends, dead and living
I suppose thereâ€™s nothing more to say
a change in season has got me asking questions
but you never answer anyway

I dreamed about the future
dreamed about the past
dreamed about a woman
but she woke me up so fast

so goodbye my friend dead and living
goodbye, goodbye, goodbye, goodbye
goodbye my friends dead and living
