

Birds and Bees

Fats Domino

A little bird said to a honeybee
I know you wish you was pretty like me
The honeybee said I'm not pretty
But I bet you 're not sweet as me
Now big bird said to the little bee
I know you wish you was big like me
The little bee said I'm not big
But you better not mess with me
The little bee told the two birds
I know you're looking for a fight
So I 'm goin' to get my family
So we can do this thing up right
The little bird said to the big bird
Don't look like we can win
The big bird said sweet talkin'
And maybe he'll come on in
