

# She's Not Dead

## Suede

She'll come to her end  
Locked in a car somewhere  
With exhaust in her hair  
What's she called? I dunno  
She's fucking with a slip of a man  
While the engine ranHe said, "She's not dead"  
"She's gone away, gone away", he said  
And he said, "She's not dead"  
"Just go away, go away", he saidIn the car he couldn't afford  
They found his made up name  
On her ankle chain  
So don't call, don't call her at home  
She's fucking with a slip of a man  
While the engine ranAnd he said, "She's not dead"  
"She's gone away, gone away", he said  
He said, "She's not dead"  
"She's gone away, gone away", he said"Just gone away, gone away", he said  
She's gone away to someone else's bed
