## **Your Love**

## **Dirty Heads**

Remember the first time that it set in We were in the back yard, listening, whoa We let the songs on the record play You told me you wanted to stay the night It seem other thing would be alright, whoa Our favorite songs on the record play

Your love gets me so high Like when we're listening to Bob Marley And you can feel it in the melody Your love gets me so high Like when we're listening to Bob Marley And you can feel it in the melody

He's got us singing like whoa, oh, whoa You know we got the feeling right Whoa, oh, whoa, yeah

Remember the first time I brought you in We didn't have to pass, we were shotgunning Whoa, you got the peace from the summer wind I can hear it now when I heard it then We got this song on our repeat then, whoa Don't wanna know when my heart will end

Your love gets me so high Like when we're listening to Bob Marley And you can feel it in the melody Your love gets me so high Like when we're listening to Bob Marley And you can feel it in the melody

He's got us singing like whoa, oh, whoa You know we got the feeling right Whoa, oh, whoa, yeah

> You said it's close to perfection I heard it in your inflection He's your favorite selection Of my records collection

So let it spin so don't stop or let it go Just wanna know if you'll stay with me Now that thing's I make them stop

Your love gets me so Your love gets me so Your love gets me so stoned Like Bob Marley And you can feel it in the melody

You got me singing like whoa, oh, whoa You know we got the feeling right Whoa, oh, whoa, yeah

Whoa, oh, whoa You know it's got us feeling right Whoa, oh, whoa, yeah
