

Just Ask Your Heart

Frankie Avalon

Just ask your heart who dreams about you
Just ask your heart who's faithful and true
Someone who cares and won't make you blue
Just ask your heart who loves only you Then you will find your true love will be
Someone who cares for you
And wants to make you happy Then when your heart says he loves only you
And when it says he won't make you blue
Then ask your heart if your love is true
Just as his heart loves only you Then you will find your true love will be
Someone who cares for you
And wants to make you happy
