# Spaced Out

## Star One

[Crewmember 1:]
Out here in this spaceship
Things couldn't get much worse
Wiping out unstable planets
All across the universe[Crewmember 2:]
Nothing seems to work right
The computer's going mad
All the systems are cracking up
And the ship's commander is dead[Crew:]
Spaced-out, no doubt
We've all gone crazy
Spaced-out, what a crowd
We're all getting high[Crewmember 1:]
I'm out here in this glass dome
Staring into space
Planets, stars and asteroids
Are lighting up my face[Crewmember 2:]
I often dream of the golden beach
Where I used to spend my days
Taking out my surfing gear
And riding on the waves[Computer:]
Emergency override[Bomb:]
Information overload[Computer:]
Data imprecise[Bomb:]
But I was told to explode[Computer:]
Emergency override[Bomb:]
I will not comply[Computer:]
Data imprecise[Bomb:]
Let there be light![Crewmember 1:]
Out here in this galaxy
Things couldn't get much worse
Our remains are scattered
All across the universe[Crewmember 2:]
I live my dreams of the golden beach
Where I used to spend my days
Out here on this space debris
I'm riding on the waves[Crew:]
Spaced-out, no doubt
We've all gone crazy

Spaced-out, what a crowd
We're all getting highSpaced-out, no doubt
Our future looks hazy
Spaced-out, I wanna shout
We're all gonna die[Crewmember 1: Dan]
[Crewmember 2: Russell]
[Crew: Damian & Robert]
[Computer: Floor]
[Bomb: Damian]
