

We Love You Jesus

Brian Howard

Opening the door to dine with Him
Traveling to earth to let us in
Laying down His glory crown of old
Setting up the wedding feast foretold Oh, we can't contain our love
We turn it up loud We love You Jesus
For so many reasons
For death and life and freedom
Even now we love You What manner of love is this that You would say?
Your sin is mine, I'll take it to the grave then rising
Death oh, death where is your sting today?
Death is swallowed up in victory Oh, we can't contain our love
We turn it up loud We love You Jesus
For so many reasons
For death and life and freedom
Even now we love You We love You Jesus
In and out of seasons
In valleys and on top of mountains
Even now can we sing?
We love You Jesus, Jesus, Jesus, Jesus We love You Jesus
For so many reasons
For death and life and freedom
Even now We love You Jesus
For so many reasons
For death and life and freedom
Even now we love You We love You Jesus
In and out of seasons
In valleys and on top of mountains
Even now can we sing?
We love You
