

China Doll

Raine Maida

She's sweet like honey
Sour like democracy
She don't want your money
She needs your sympathy She'll be your greatest lover
But she doesn't belong to you
She's unlike any other
She doesn't belong to you Oh, she's your China doll
She's patient, won't be for long
She's hopeful, the time's running low
She's gone before you know She's the alarm bell ringing
And she's your latest fix
The fat lady singing
The truth and that's some trick Oh, she's your china doll
She's patient, won't be for long
She's hopeful, the time's running low
She'll be gone before you know
Before you know, before you know
Before you know, you know She's sweet like honey
Sour like democracy
And she don't want your money
She needs your sympathy
