

Chemicals

Taddy Porter

All this wasted space
This whole room it takes
 Hard to stay awake
 This is my escape
 If we feel it back up
 Amphetamine rush
 Set me on fire tonight, tonight
 It's getting critical, getting critical
 I gotta let it go, gotta let it go
Your my chemical, your my chemical
 Killer, killer, killer, killer
 Stabs me in the back
 Takes me all I have

 Wrestle to the floor
 See you soon for more
 If we feel it back up
 Amphetamine rush
 Set me on fire tonight, tonight
 It's getting critical, getting critical
 I gotta let it go, gotta let it go
Your my chemical, your my chemical
 Killer, killer, killer, killer
 It's getting critical, getting critical
 I gotta let it go, gotta let it go
Your my chemical, your my chemical
 Killer, killer, killer, killer
