Lookout Love

Price Jones

Givin' in, lettin' go it's kinda new to me
But I believe that the truth is finally gettin' through to me
What I wish for and what I get, well it's not all the same but it feels ok

If I were queen you'd be king and there'd be enough of me
As it is I'm a kid and you're growing up with me
Shootin' down that winding road to a place we've never been but we seem to know

Better lookout love
Cause here I come
Better lookout love
I'm heading your way, heading your way

When the winds blowin' in and you're sittin' close to me
I could swear that your touch is all that I ever need
We're not just making love, we're making memories that are gonna stay

Better lookout love
Cause here I come
Better lookout love
I'm heading your way, heading your way

Better lookout love
Cause here I come
Better lookout love
Cause here I come
