

Friends In Low Places

Florida Georgia Line

Yeah, blame it all of my rooms
I show up and bubs
Ruining your black top..
Last one to know, last one to shoe
I was last one you thought you've see there
And I saw I surprise
And I feel it was ours when I took his glass of champagne
Yeah I toast that you said
The only way make me through
But you never hear me complain
I got a friends in low places

[Chorus]

When the whiskey is drown
The bear is chasing by bloose away
Yeah I'll be OK baby
Cuz I'm not gotta bet all social brakes
They got sleep all down to the all
So I gotta a friend in low places

That's right boys, let's go
I guess I was wrong, I just don't belong
Everything, I've been here before
Everything's alright I just say goodnight
And I will show myself to the dawn
I didn't mean to cause a big scene
Just give me now and then
I'll be as high as the Eiffel Tower
That you live and

[Chorus]

When the whiskey is drown
The bear is chasing by bloose away
Yeah I'll be OK baby
Cuz I'm not gotta bet all social brakes
They got sleep all down to the all
So I gotta a friend in low places

Yeah, I guess I was wrong I just don't belong
But then I've been here before

Everything's alright I just say goodnight
And I will show myself to the dawn
I didn't mean to cause a big scene
Just wait 'til I finish this glass
Then sweet little lady I'll be back to the bar
And you can kiss my ass
I got a friends in low places

[Chorus]

When the whiskey is drown
The bear is chasing by bloose away
Yeah I'll be OK baby
Cuz I'm not gotta bet all social brakes
They got sleep all down to the all
So I gotta a friend in low places
We gotta friends in low places
Yeah, come bring on one time
