Leroy Jones

Kandi

Oh, oh, oh
Let me tell you a story about a man named Leroy Jones
He loved my mother's children like they was his own
He was a role model, he was there for me
The first man to take on a shopping spree
That's the type of man that me and my daughter need
See I'm a two for one baby, I'm a packaged deal
Not trying to scare you away, I'm just keeping it real
'Cause I'm not alone
And if I'm the woman you really and truly want
Then you gotta love my child like you love your own
Is there enough love inside you, can you handle?
To love 'em like you love your own
Just like Leroy Jones
And when they broke up, he was still around
Although they didn't work out, he didn't put us down
He came to my school plays, all my brother's games
And walked my down the field when I won this 10th grade
Do you think that you could treat my child the same?

'Cause I'm not alone
And if I'm the woman you really and truly want
Then you gotta love my child like you love your own
Is there enough love inside you, can you handle?
To love 'em like you love your own
Just like Leroy Jones
God bless the man that can love a child
That's not his own, like his own
God bless the man that can love a child
That's not his own, like his own
'Cause I'm not alone
And if I'm the woman you really and truly want
Then you gotta love my child like you love your own
Is there enough love inside you, can you handle?
To love 'em like you love your own
Just like Leroy Jones
Ooh, I love, I love, I love Leroy Jones
Can you be like Leroy Jones?
Can love a child that's not your own
