

I Promise You

[Johnny Reid](#)

Seemd everytime things are looking up
The sky comes crashing down
Seems everytime we spread our wings
We're chained to the ground
These troubled times never seem to fade away
But it won't be long 'till these dark clouds reveal better days I promise you
Whatever we run into
As sure as I am I'll never let go of your hand
I promise you we'll fly up in sky's of blue
Our love will pull us through I promise you With innocence lost where do you run
To get out of the storm
Dry your tears the only shelter you need
Is right in my arms
Take a deep breath and just hold on to me believe
You belong in the sun now baby right here next to me I promis you
Whatever we run into
As sure as I am I'll never let go of your hand
I promise you we'll fly up in sky's of blue
Our love will pull us through I promise you Take a deep breath and just hold on to me, believe
You belong in the sun now baby right here next to me I promise you
Whatever we run into
As sure as I am I'll never let go of your hand
I promise you we'll fly up in sky's of blue
Our love with pull us through I promise you...
