

Your New Cuckoo

The Cardigans

I saw you there
I stopped and stared
The curly girlie smiled
You really were

Too close to her
And people just went by
I saw your face
And her embrace

Your whisper in her ear
I know the score
'Cause I've heard it before
I read your lips with fear

Your words were clear (you said)
Lalalalalala
Let's say forever let's say it's true
Lalalalalala

Let's come together me and you
Lalalalalala
Your new cuckoo
