

Baby Hit And Run

The Contours

BABY HIT AND RUN
by James Dean & William Weatherspoon

(DENNIS EDWARDS LEAD)

Watch out for that lady
She's driving me crazy

(Yes she is)

Here she comes
She's comin' through
(Yes she is)
And watchout buddy
(Cause) She's got her eyes on you
She'll break your heart
And then depart

She'll make you love her, and then she'll leave
Leaving you alone to grieve
She calls it fun
She's Baby Hit and Run

(Ooohhh, yes she is)

Pretty eyes shinning big and bright
A bundle of joy, she's outta sight
Long black hair and fancy clothes
She's got a reputation that everybody knows

You fall in love and she'll be your world
But soon you'll be looking for a long gone girl
She'll build you up and then she'll let you down
The days are numbered that she'll be around
She'll keep you hoping for a long long while
Then she'll leave, have a satisfied smile
No matter what you say
She'll soon be on her way
She calls it fun

Baby (your hittin' and runnin') [??]

(Ooohhh yes she will now)

Here she comes just around the bend
Another heartache gonna soon begin
She'll be hittin' in a breath of the sky
And when she's gone, there'll be tears in your eyes

Give her your love and you don't go back
And then you'll find out her love was just an act
To her your love is like a silly game
She's like a tiger that can't be tamed [tame ??]
She never stays in one place very long
Here one minute, and then she's gone
Doesn't matter what you say
She'll soon be on her way
She calls it fun
Baby Hit and Run

(Now listen, listen everyone)

There she goes, she's done it again
Broke a heart of an innocent man
She's wanted for heartbreak all over this land
When it comes to hearts, she break as many a she can

If you get in her way whenever she's around
She'll show no mercy, she'll just run you down
Stop that girl, don't let her get away
If you don't stop her, she'll get you some day
She calls it fun
(Yes she does)
Calls it fun
(Oh, baby)
She's hit and run

FADE OUT
