All We Are

Kim Mitchell

All we are is all that love brings
We spin as the highest star spins
We get hearts on fire and in love
And sometimes we're too blind to seeAnd I know now that love sometimes stings
When you're waiting for a telephone ring
And you feel like a lone star spinningThat might as well give up burning
Don't ask me if I'm still in love
I'm hit by this love song I sing
'Cause you made me feel such a long way awayI know now that love sometimes stings
I've waited for your telephone rings
And you made me feel such a long way away
