

Master of Light

Monster Magnet

I'm afraid of nothing
It's the only way to be
Welcome to the rubber room
It was made for you and me, uh huh Want to see how a snake can fly
I believe that you can't say no
Just get ready for the world outside
It's insane
It's insane Hey!
Keep your head looking up to the sky
See the blood pooling down below
You believe that a snake can fly
I believe that you can't say no [Chorus]
I can shake now and I can show
I can go where no-one else goes
Check your head now and hold on tight
It's surfing time with the master of light Life's a big explosion
With its candy and its pills
And I can see why some of you
Love your demons when you're ill
Let me smooth along your heart now
Let me reach inside your head
Life's a big explosion
Ain't it cool [Chorus] With the master, with the master of light
With the master, with the master of light I'm Jesus, I'm Satan
I'm anyone you want me to be
You're broken, you're frozen
You're better off of coming with me I'm afraid of nothing
It's the only way to be
I'm afraid of nothing, not today [Chorus: x2] With the master, with the master of light
With the master, with the master of light
