Ascending To Infinity

Luca Turilli's Rhapsody

Somewhere beyond the arcane multiversum
The gene of the cosmos, the code of the soul
Logic and spirit, the vertical limit
A quantum, a secret, the fall of the godsDark revelation and intimate vision
The seed of new danger for makind's new dawn
Fear and illusion, the jar of pandora
A sentence so hard for the fate of the worldVelato senso che addombri il mio se'
D'un tal destino svela il perche'Far from the borders of science and wisdom
Ways to oblivion and dark matter worlds
Lost equilibrium, a cell of new evil
Alpha et omega
The end of allFree your mortal sight
Arise to frozen alien skies
Ascend beyond your will
To infinityCyber millennium, the matrix of heaven
The saviors displaying their absolute might
New evangelion, a sefirah flaming
The heart of an angel now burning the skySent by the stars a new sign, a new chance
From the same far dimension where all once began
Symbols and words of enigmas forgotten
Became modern truth, holy trace of a planL'ultimo volo di un'anima
Verso l'eterno senza perche'They came to us as announced by the prophets
Painting the skyline of new blazing hope
Lost equilibrium, a cell of new evil
Alpha et omega
I'll be rebornFree your mortal sight
Arise to frozen alien skies
Ascend beyond your will
To infinityEgo sum alpha et omega
Finis et principiumDicit deus qui est
Qui est et qui erat
Et qui est venturus
Deus dominusStarlight shining
New hope flying
Cosmic essence
Heaven's vengeance
Deus dominusFree your mortal sight
Arise to frozen alien skies
Ascend beyond your will

To infinityDicit deus qui est
Qui est et qui erat
Et qui est venturus
Deus dominus
