I.l.y.

Nivea

I want you to know (I've only got 3 min. take a second baby let me finish)
My thoughts, my bags, my tears you took it all (just wanna take something off my chest baby let me finish)
Without you where would I be my smile was so tinted love life so fiction
As I read you my biography you didn't turn away that's why I say...
Chorus:
Yeah (Yeah) Yeah I'm so proud of you glad that I chose you
Say yeah (yeah) yeah (yeah) all the girls that feel the same let me hear you say yeah, yeah, yeah and if your proud of him, show him you love him say yeah, yeah, yeah, yeah
Do you know what I mean and all you can say is yeah

I just had to get it off my mind and sing you my heart
What do you want you know I'll give it to ya
You so deserve it I love you babe
Without you where would I be my smile was so tinted, love life so fiction, as I read you my biography you didn't turn away that's why I say...
(Chorus)
I just had to get it off my mind and sing you my heart
Yeah
