Easy Way Out

Tahiti 80

I call your name but you never answer
You bend your head and run away
If it's not true, I wish it were
'Cause we still talk but it's even worseYou don't even dare to look into my eyes
In the past we used to talk for so many hours
About things that only we could understand
Now I wish I could forget all this by closing my eyesIt never happens this way, oh, it would be too easy
Because there's no easy way out in friendshipYesterday, I dreamt I was swimming in a giant beer mug
And that you were trying to whisper something in my ear
It never happens this way, oh, it would be too easy
Because there's no easy way out in friendshipThere were some times when I thought we could have patched things up
Now I don't knowThings never happen the way you thought they would happen anyway
So why try to find an easy, easy way out in friendship?
There's no easy, easy way out
I try to find an easy way out in everything
