

To Reflect

Mortimer Nova

little files of problems
come screaming from the mouths
backwards fill the empty bag
and take out all the angstwalk towards the echo
shaving the skin
countdown to midnight
the symptoms will fly awayfly away
lighters all are empty
at least that saves my throatwalk towards the echo
shaving the skin
countdown to midnight
the symptoms will fly awayfly away
screeching towards the impact
both hands off the wheelwalk towards the echo
shaving the skin
countdown to midnight
the symptoms will fly awayburn all the memories away(then we can fall in love)
please keep the secrets from her (then we can fall in love)
sift through the lies about us (then we can fall in love)
run away to fall in love (then we can fall in love)little files of problems
come screaming from the mouths
backwards fill the empty bag
and take out all the angstwalk towards the echo
shaving the skin
countdown to midnight
the symptoms will fly awayburn all the memories away(then we can fall in love)
please keep the secrets from her (then we can fall in love)
sift through the lies about us (then we can fall in love)
run away to fall in love
