

# She Did It

## Travie McCoy

Have you heard of goodbye  
We goin' fly away tonight  
Glasses full of raspberry wine, baby appreciate the vibe  
Girl I know I travel so I gotta pick up and go  
We buying everything that we can afford  
Straight with the play, no other bulls  
Noo girl mmm all red eye with your pillows  
Mmm I know you wanna snuggle  
Ohh it's only been a few hours  
Damn shorty mad at chu  
Because she did it did it did it  
D-did it did it did it did it  
She did it  
Your imperfections fits you so perfectly  
That's how you did it, you did it to me  
Cause she did it did it  
Did it she did it  
Did it did it did it  
She did it  
Morning babe can we wake up and do it again  
From your hair to the sexy little things that you wear  
We go together like a kick and a snare  
This ain't your average everyday love affair  
No, you don't even try  
I put you on a pedestal bona fide, lord take me down if I'm telling a lie  
So would somebody please help me testify and put your hands together for the girl  
Mm all red eye with your pillows [?]  
Mmm I know you wanna snuggle  
Ohh it's only been a few hours  
Damn shorty mad at chu, why  
Because she did it she did it did it [repeat]  
Morning babe can we wake up and do it again, do it again  
I'll be your magic, be my illusion  
Because when we're together we're just so confusin'  
And to the public, yeah they love it  
We havin' wire image takin' pictures of it  
Ooo you so famous  
Just wanna thank ya because you came out with the classical behavior  
Do me a favor, cover those razors with some Marc Jacobs, your eyes are so amazing

Because she did it... [repeat]
