# Devilish

## Randy

some people always crying
for things they should (should or shouldn't do)
i saw my face in the mirror
and i knew (knew that it was all true)mister i got a question
is my generation (generation cursed?)
cause we are all swimming in water
but we are dying of thirsti oh i got a lot of things on my mind
i oh i feel devilishmy friend you got to hear this
somebody's telling (telling the truth)
the scientist don't believe him
they claim he aint (claim he ain't got the proofs)oh lord i got a question
what are we (suppose to do?)
with all this ammunition
when we can't use it on you?i oh i got a lot of things on my mind
i oh i feel devilishdevilish - they say i'm vicious
devilish - they say i'm paranoid
devilish - they say i got a mission:
get myself destroyeddevilish - they say i'm anti-social
devilish - they say that i'm insane
devilish - they injected boredom
straight into my veinsi oh i got a lot of things on my mind
i oh i feel devilish
