

# Falling for You

[Ali Stone](#)

It's not safe to say, I know you  
But I can't fool my eyes every time I see you  
'Cause I get this weird feeling like I'm falling for you  
And there's nothing I can do oh, oh  
It's not safe to say, I can't trust you  
With every step I just feel I want to  
'Cause I meant this weird feeling like I'm falling for you  
And I can't do nothing to lose oh oh  
So let me come to you I will promise I will make you feel good na na na  
So let me come to you I will promise I will make you feel good na na na na  
I guess you're not easy to read but I can tell you like me  
And in the way you speak I can feel that you are falling for this  
So let me come to you and I will promise I will make you feel good na na na na  
So let me come to you and I can promise I will make you feel good na na na na  
(So let me come to you, I will make you feel  
so let me come to you, I will make you feel)  
So let me come to you and I can make you feel  
So let me come to you and I can make you feel good na na na  
(Ali's Guitar solo)  
So let me come to you and I'll promise I will make you feel good na na na na  
So let me come to you and I'll promise I will make you feel good na na na na  
(So let me come to you and I can promise I will make you feel good)  
So let me come to you, I can promise I will make you feel good
