Call Me Animal

MC5

I take a laser beam
And I use it like a stone axe, baby
I take the present, past and future Mama
And blast it out my thorax, hey, heyCall me animal, that's my name
Call me animal, I'm not ashamed
Call me animal, this is your hour
Call me animal, you've got the powerI use the juju of my ancestors
To drive this piece of meat
I scream the music of the Pleistocene
Well, just because it's got a good beat, hey, heyCall me animal, that's my name
Call me animal, I'm not ashamed
Call me animal, this is your hour
Call me animal, you've got the power
Animal, animal, animal, animalCall me animal, that's my name
Call me animal, I'm not insane
Call me animal, this is your hour
Call me animal, you got the powerAnimal
Animal
Animal
