

# Cast Off (Demo)

## Louden Swain

I got something in my head  
A plate of steel  
Oh yeah they said I was almost dead  
I got something in my eye  
I'd scratch it  
But the cast has my good hand inside. She's a pretty little catch  
I like the way her hair  
Fits right inside her nurse's cap  
Her breath smells like gum  
Juicy, juicy fruit  
If my jaw wasn't wired I'd have me some  
And nothing good happens to me  
Yeah nothing good happens to me  
Baby I'm shaking when you take care of me  
But it's alright  
Yeah it's alright  
Maybe I'll make it out  
We'll just have to see  
It's alright, yeah it's alright The sun comes up and I'm alive  
She holds the door  
As the throng of visitors arrive  
And when it's dust she brings me treats  
The jello's old and warm  
But her face is young and oh so sweet  
And nothing good happens to me  
Yeah nothing good happens to me  
Baby I'm shaking when you take care of me  
But it's alright  
Yeah it's alright  
Maybe I'll make it out  
We'll just have to see  
It's alright, yeah it's alright I will recover in the same way  
I learned to ride my bike  
I was five! The day it finally arrives  
The cast comes off and I am no longer mummified  
And there she is but there she goes  
Another patient rolls in just as the door swings closed  
And nothing good happens to me  
Yeah nothing good happens to me Baby I'm shaking when you take care of me

But it's alright  
Yeah it's alright  
Maybe I'll make it out  
We'll just have to see  
It's alright, yeah it's alright
