

Superstar

Big Time Rush

Oh no, it's on tonight
Here we go
You're looking right, I know you know
So go ahead and let it go, go, go, go
You're shining like a star
I wanna be where you are, are
Oh no, oh no
Let's take over this club
You're shining bright in the dark, dark
You light up the night You wanna wil' out, then wil' out
All eyes on you
It's going down, down, right now
You can't lose
You wanna wil' out, then wil' out
That's what you do
Talk of the town now
And you already know that you're a star
A superstar
That you're a star, a superstar
That you're a star, that you're a star, a superstar
And you already know It's time, I love this feeling
Can we rewind
To the beginning of this crazy night
So, baby, we can let it go, go, go
Hey-ey-ey
You're shining like a star
I wanna be where you are, are
Oh no, oh no
Let's take over this club
You're shining bright in the dark
You light up the night You wanna wil' out, then wil' out
All eyes on you
It's going down, down, right now
You can't lose
You wanna wil' out, then wil' out
That's what you do
Talk of the town now
And you already know that you're a star
A superstar

That you're a star, a superstar
And you already know Forget the moon, ignore the sky
'Cause the whole world is all yours tonight
Get it girl, it's your time
Shine until the morning light
The light
The morning light 'Cause you're a star
A superstar You wanna wil' out, then wil' out
All eyes on you
It's going down, down, right now
You can't lose
You wanna wil' out, then wil' out
That's what you do
Talk of the town now
And you already know that you're a star
A superstar
That you're a star, a superstar
That you're a star, that you're a star, a superstar
And you already know Hey
Yeah
Whoa Hey
Yeah
