Welcome, you have just accessed  
The Akashic Records Genetic Information Division  
This program is required for those wishing  
To obtain a marriage blessing from the Kingdom When you wish to begin this program  
Place your right hand on the scanner  
And tightly clench up your butt cheeks  
As you might feel a slight electrical shock Please, select the race history you desire  
You have selected African American, this is your history First of all, the term, black and white is a fallacy  
It simply is another way of saying, this or that  
Let's examine the term, this or that in its ultimate form  
Which is, this means the truth or that which is resistant to it When a minority realizes its similarities on a higher  
level  
Not just black but people of color and higher, still indigenous  
And even higher, still from the tribe of and yet higher  
The rainbow children, when this understanding comes  
The so-called minority becomes a majority in the wink of an eye This action will cause a reaction or resistance  
The source of this resistance must be banished  
As it is in direct conflict with the initial action  
It cannot be assimilated, for it's very nature is resistance  
In other words, one cannot serve two master  
You are either, this or that, which is not this End of part one, to continue, select the program
