

Ain't None of Your Business

Wendy O. Williams

Ain't here to tell so get a grip
I aint really what you think
I ain't guilty or innocent
Don't play a fool, don't turn your back
You ask me why, well listen Jack You'd better practise what you preach
Cause there aint nothing you can teach me
Won't wear a target on my back
I don't stand for no third degree
I don't care what you think of me
I do as I like, I'll do as I please, don't ask me why They go to church, they go to school
But I ain't nobody's fool
May go right, may go wrong
I may sing a different song
Don't try to label who I am
One thing you'll never understand
Just keep your thoughts to yourself
Don't play a fool, don't turn your back You ask me why, well listen Jack
I'll do as I like, I'll do as I please, don't ask me why Bite off more than I can chew
Don't tell me what to do
They go to church they go to school
But I ain't nobody's fool They rule the world, they sell it whole
They socialise, they live a lie
