## Dumbfoundead

[Intro: Thane Maynard]

He has got inside, he has climbed through the fence, and has fallen about 3 meters into the enclosure. Debate now turning to whether or not the zoo authorities did the right thing, in ordering a gorilla to be shot, rather than tranquilized

I don't question why they felt it was a life threatening situation[Dumbfoundead]

They tryna take me out like Harambe

I take a tranquilizer on a Monday

While the real ones we lost getting listed in the back

While the fronting motherfuckers get the front page

The world is a zoo, you've seen the news

You've seen them shoot at the youth

The world is a zoo

I see you pigs at the barbecue

God bless the red, white and blue

HarambeParanoia just to hit the corner

Store to get a cherry cola and a bag of chips with a bitch

They got neighborhood watch for the gangs and the cops

I ain't talkin' bout standards feel the burner on your neck

We'll give you an attorney or a gurney to get checked

We'll be lucky just to get the dirty dyin' earnin' death

They might give me 25 to life for murderin' my set

Broke boys everywhere like the government in debt

Welcome to the jungle with more guns than roses

Keep from going under now don't push me over

Hold my composure, four whiskey soda's

I need that Irish no luck with clovers[Dumbfoundead]

They tryna take me out like Harambe

I take a tranquilizer on a Monday

While the real ones we lost getting listed in the back

While the fronting motherfuckers get the front page

The world is a zoo, you've seen the news

You've seen them shoot at the youth

The world is a zoo

I see you pigs at the barbecue

God bless the red, white and blue

Harambe
