Forever and a Day

Saliva

The complicated ways of love
Become all you're thinking of
Sometimes leaving's not the way
No matter what you sayAnd lies are compromises
You see it in each other's eyes
And, and suddenly you realize
You can't take it one more dayYou know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a dayThe complicated ways of life
Can cut you like a knife
Sometimes anger's not the way
And you regret the things you sayAnd lies are compromises
You see it in each other's eyes
And and suddenly you realize
You can't take it one more day'Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day, a day, forever and a day'Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and ever'Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day'Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day
