They gon' tell you bout the high, don't do it They gon' make you smoke that loud, don't do it Grab on it, hold on baby (x2) Don't do it You know the devil gon' test you Don't you fall under the pressure baby (Don't do it, don't do it) [Verse] They tell me that this good guy shit is not working out They say I need a different plan I need to get one of these famous niggas' girlfriends naked And put the video on Instagram Trust me if I pour her up a bigger glass Then she'll show a little ass And she might put her hands up in a nigga pants To make up for the little ass, 'cause she got a little ass I was in the club getting, a lap dance from a big one But I was on my phone tweeting bout his other song You would swear I couldn't feel noth'n Like I couldn't feel her ass I was at the club getting, a little too drunk for a little man Thinking bout how God can take it all away Like "Fooled ya, it was just a prank" Should've listened to your dad when he said, he said [Hook] They gon' tell you bout the high, don't do it They gon' make you smoke that loud, don't do it Grab on it, hold on baby (x2) Don't do it You know the devil gon' test you Don't you fall under the pressure baby (Don't do it, don't do it)
