Rock Me To The Top

Tesla

(Keith, Skeoch)
You gotta see him, are you ready, to take me in and rock me steady
Feel the power, feel the heat, put yourself in the driver's seat
You're in the air, I feel you surround me
I'll do anything that you wanna do - come on!
[Chorus:]Rock me, rock me (rock), rock me to the top, to the top, baby
Rock me, rock me (rock), don't ever stop, no
I'll take command, take control, now I see you comin' back for more
I see you like it, but you don't need it, oooh, you wanna feel it

I'm in the air, feel me surround me
I'll do anything that I want you to - come on!
[Chorus][Solo]Rock me, rock me (rock), rock me to the top, [says you looked hot] to the top
Rock me, rock me (rock), ohh baby don't you stop
(Rock) I wanna feel the air, the air, wanna feel the air (rock)
I wanna feel the air tonight, can you feel the air, ow!
