## Blues Pills

I go, I go  
Walking south by the river  
I'm told, I'm told  
I'll find gold by the river So long, so long  
My dear friends and hello strangers  
Oh shine, oh shine  
My sweet metal please release  
Oh my bodies soar, don't hurt no more It's time, it's time  
I hope my search will find an answer  
It's hard but I keep on wondering how  
My life could change for the better  
You know I tried to get things right  
Thought this would be the answer  
So wash, so wash  
Wash that dirt from my treasure Oh this precious gold won't make me whole  
Please let me go All I ever wanted was right in front of me  
This life made me empty  
I've got nothing left to give  
How you hurt my pride, you pushed me down to the ground  
All you ever wanted was to hold me down It's hard but I keep on wondering how  
My life could change for the better  
You know I tried to get things right  
Thought this would be the answer  
So I wash, I wash  
I wash that dirt from my treasure  
It's hard, so hard  
But I learn and I get better  
Oh this precious gold won't make me whole I go I go  
But it's a long way to the river  
And I can't find any gold by the river
