Warm Me Up

The Audition

All I want is to be with you
All I want is to be with you
Show your cards, show me what you got
We'll break these poker faces, like it or notEveryone's in my head
But I want you in my bed
I never want to go a day without you
I could never go a dayCome closer to me, baby
I've got everything you need
To fill your hunger pangs for tonightWarm me up beneath the sheets, babe
I've heard all about how you can save
I don't wanna go a day without youWarm me up beneath the sheets, babe
I've heard all about how you can save
I don't wanna go a day without youInnocence meet jealousy
Isn't she stunning?
She'll make you smile so wide inside
Make you wish you'd bring back those nightsTake a walk with me through my head
I'll show you where I rest
All those nights when I'm without you
Draw a new breath, I swear I'll show youCome closer to me, baby
I've got everything you need
To fill your hunger pangs for tonightWarm me up beneath the sheets, babe
I've heard all about how you can save
I don't wanna go a day without youWarm me up beneath the sheets, babe
I've heard all about how you can save
I don't wanna go a day without youCome closer to me, baby
I've got everything you need
To fill your hunger pangs for tonightThis can all be a reality
If you just say you'll stay here with me
I'll make sure everything is on rightWarm me up beneath the sheets, babe
I've heard all about how you can save
I don't wanna go a day without youWarm me up beneath the sheets, babe
I've heard all about how you can save
I don't wanna go a day without you
