Overjoyed

Bahamas

Overjoyed
If laughter's all we had
Overjoyed
There's joy in feeling sadNow I know...(x3)Lost the nerve
To fight ya over this
And all I want
Is to taste my lover's kissNow I know...(x3)All the times to you I lied
Of all the hurt I hold inside
Release me, you release me
You release meYou help me get it off my chest
You hold the pain and leave the rest
Release me, you release me
You release meDarlin' you release me
