

# Overjoyed

## Bahamas

Overjoyed  
If laughter's all we had  
Overjoyed  
There's joy in feeling sad Now I know...(x3) Lost the nerve  
To fight ya over this  
And all I want  
Is to taste my lover's kiss Now I know...(x3) All the times to you I lied  
Of all the hurt I hold inside  
Release me, you release me  
You release me You help me get it off my chest  
You hold the pain and leave the rest  
Release me, you release me  
You release me Darlin' you release me
