

# Out of Mind

## DIIV

Yeah out of sight  
And out of mind  
But everything I should do  
Just comes so easily to you  
You had me first  
Our shadow thirst  
When roles reverse  
My mind rewinds and i see you  
I'm out of signs  
At the end of the line  
But I'll be fine  
When it's time I'll know what to do  
The world was mine  
But I'm too blind  
I'll stay behind  
And choose which scrap to start anew  
I'm out of sight, I'm out of mind  
Out like a light, and left behind
