

Show Me the Love

George Benson

(Verse1)

It's been a while I missed your smile and those moments that we used to share babe.

I need to know it's not for show and the way you look is just not fair.

I know you're trying to pretend getting closer to the end. It's just start all over again.(Chorus1)

Show me the love that you gave. When I looked into your eyes. It's like a little piece of heaven in my soul.
Show me the love that we had. I'm remembering the night you came into my life now I need you to show me
the love.(Verse2)

You're like the light shining bright. No one's ever made me feel this way. No no~

We took a chance then we danced. And filled me with these words I say.

Suddenly you came along like the words without a song waiting for music for us to sing.(Chorus2)

Show me the love that you give. When I'm lying next to you I can tell by the beat of your heart that it's true.
Show me the love that we had. I'm remembering the night you came into my life now I need you to show me
the love.(Bridge)

Remember when all this was new I remember when you said 'I do'

My dream came true.(Chorus1)(Chorus2)

I can tell by the beat of your heart that it's true.

Show me the love that we had. I'm remembering the night you came into my life now I need you to show me
the love.
