Old Friends

New Edition

Old friends
Are the best friends
All my old friends
Are my best friendsOld friends
Are the best friends
All my old friends
Are my best friendsSaw you walk into the club last night
Could not even believe what I was seein'
How do I even stop thinkin' of you?
'Cause in my eyes you're still mineNobody told me I would feel like this
Wanting you more as the years walk on by
Now I'm not afraid to say what I, I believe
But I wish you were my wife, my old friendOld friends
Are the best friends
All my old friends
Are my best friends
(My old friend)Old friends
Are the best friends
All my old friends
Are my best friendsFirst time we met so cool, I never knew
You would become so closely to my heart
And now when I look back, girl I was so blessed
The rest never passed the testI'm choosy when it comes to newfound friends
And I wish they could be so smooth, just like you
And you never sweated me girl that was so tight
You were an angel in my life, oh, if(I knew then)
What I know now
(What I know now)
Oh, yeah
(You wouldn't be with him)
You would be here
(You'd be here with me)
