Dance With the Vamps

E-Rotic

I feel the moon of Transylvania
Shining into my heart
I hear the sound of creatures in the dark
I feel the lightning of wildest mania
Striking through the night
Need your arm to hold me oh so tightA dance with the vamps
Makes my blood freeze
Lost in my secret fantasies
Baby release me
Kiss me
I wanna feel the pain
A dance with the vamps
Sets my heart free
And burning crosses I can see
Baby please thrill me
Kill me
Make my heart go insaneI feel your lips so warm and tender
Kissing my fears away
I feel your hot blood mixing up with mine
I know youre real baby youre no pretender
And I want you to stay
Stay with me until the break of dayDance with the vamps
Kiss me
Kill me
I wanna feel the pain
Dance with the vamps
Makes my blood freeze
Lost in my secret fantasies
Baby release me
Kiss me
I wanna feel the painA dance with the vamps
Sets my heart free
And burning crosses I can see
Baby please thrill me
Kill me
Make my heart go insane
