

# **Contention**

## **1208**

This is a fight, broken bottles, bloody walls  
There was a time, when a fist could solve it out  
But those days are gone along with many murdered lives  
Hey, contention  
Hey, it's killing us  
This is a war, complete with a body count  
This ain't the past, this ain't the future, this is now

When will we stand up and refuse to be put down?  
Hey, contention  
Hey, it's killing us  
Hey, contention  
Hey, it's killing us
