

Make The World Move

Christina Aguilera

Fight the darkness, sing the song
Fight the darkness, sing the song
Fight the darkness, sing the song
Move! move! move! ?

If one smile could erase a frown
Imagine what two could do (turn it up! hey!)
And if one voice could change a heart
Imagine what two could do (turn it up! hey!)

The time is now
No time to wait
Turn up the love
Turn down the hate
Turn up the love
Turn down the hate (hey)

Keep dancing too, let the record play
The time is now
No need to wait

Turn up the love say 'cause I'm free?
No time to wait (hey!)
Make the world move

Come on and make the world move
Spinning faster
Round and round

Let me hear that future sound
If you and I can compromise
Imagine what a few could do (turn it up) (yeah)
Don't listen to the point of view
And haters ain't fooling you (turn it up) (yeah)

The time is now
No time to wait
Turn up the love
Turn down the hate
Turn up the love

Turn down the hate (hey)
Keep dancing too, let the record play
The time is now
No need to wait
Turn up the love say 'cause I'm free

No time to wait (hey!)
Make the world move
Come on and make the world move
Spinning faster
Round and round
Let me hear that future sound
Starts with me and you
Make the world move
Just think about it
Anybody
You love somebody oh oh oh
Cause if anybody
Can love somebody
So can everybody oh oh oh
Imma need somebody
To help somebody
We all need somebody
The time is now
No time to wait
Turn up the love
Turn down the hate
Turn up the love
Turn up the love
Turn up the love
Yeah!
Make the world move
Come on and make the world move
Spinning faster round and round
Let me hear that future sound
Starts with me and you
Make the world move
