

# Wild Flowers

[Mark Lanegan](#)

I have to watch you come back to the river  
Now it's all I can do  
Will you still be convinced wild flowers?  
Are waiting for you In my mind, I've done good things  
And never cared why  
And my mind is an open door, with nothing inside Looks like the hour is upon us  
It's turnin' so cold  
When everything said's either faded out  
Or written in stone If you could find an easier road, you'd take it today  
You could have taken me anywhere  
You just take it away I have to watch you come back to the river  
If it's all I can do  
Will you still be convinced wild flowers?  
Are waiting for you Have we ever done good things  
And never cared why?  
'Cause my mind is an open door, with nothing inside
