No Regular Woman

The Ravyns

I watch her on the dance floor nearly every night
And all the other girls just disappear
Caught up in a fantasy
I call for her to come to meBut she never hears
No regular woman
She no regular girlThat lady got something
Something put this boy in whirl
Her body move as graceful as the swallow fly
Her eyes they have the sparkle of the starI want to take her back with me
Show her to my family and my shangrila
Last night I dreamed about her as a butterflyShe bring the gentle warm of the spring
She shared my humble offerings
She give me love then spread her wings
And fly awaySure as spring comes summer
I must bring my love here
Sure as love surrounds her
I have found no regular woman
