

# Operator

## School Gyrls

Been off the hook for so long  
Can't hear a thing, the beat is gone  
I miss the music, pick up the phone  
'Bout to lose it if you don't play my song  
So we can dance, I wanna move  
Dial 411, trying to find some fun  
The switchboard's switched off, lines got crossed  
Signal's busy, we can't talk  
Operator, I need your help  
Play me something to make me dance  
Operator, can you connect me  
To the M, to the M-U-S-I-C  
Operator, I need you to  
Make me feel it so I can move  
O-o-o-o-o-operator, hey  
O-o-o-o-o-operator, operator  
I've got to go, I need to leave  
The silence drives me crazy  
Feels like I, I can't breathe  
Take my request, it's an emergency  
Call EMT, the police  
I'm 'bout to dance 'til I OD  
I can't wait 'til you press play  
To let the beat take me away  
I'm trying to talk to anyone  
That can tell me where to have some fun  
G.P.S will get me there  
Don't start the party 'til I, operator  
Operator, I need your help  
Play me something to make me dance  
Operator, can you connect me  
To the M, to the M-U-S-I-C  
Operator, I need you to  
Make me feel it so I can move  
O-o-o-o-o-operator, hey  
O-o-o-o-o-operator, operator  
Been out of touch for so long  
So glad you helped me get back home  
This must be where I belong

To feel complete, I need a beat  
The rhythm's so amazing  
Feel the system banging  
I'm back in touch with my first love  
The dance floor's mine tonight, tonight  
Operator, I need your help  
Play me something to make me dance  
Operator, can you connect me  
To the M, to the M-U-S-I-C  
Operator, I need you to  
Make me feel it so I can move  
O-o-o-o-o-operator, hey  
O-o-o-o-o-operator, operator  
Operator, I need your help  
Play me something to make me dance  
Operator, can you connect me  
To the M, to the M-U-S-I-C  
Operator, I need you to  
Make me feel it so I can move  
O-o-o-o-o-operator, hey  
O-o-o-o-o-operator, operator
