

# Here They Come

## Royal Bliss

Open my eyes to a whole new clan  
Another kind I dont understand  
Here they come here they come take away my friends  
This is not where the story ends

I see their lies and I see their ways  
They walk around them everyday  
Here they come here they come with the same old grin  
Save me but you're not my friends

I came I saw I made it possible  
I've done it all its not just physical

Open my eyes but its all the same  
So many lies that they cant explain  
Run away run away with it all you can  
Someday you'll understand

I came I saw I made it possible  
I've done it all its not just physical  
Here they come here they come take away my friends  
I will not follow them  
Here they come here they come take away my friends  
With all their promises

All I need is for you to see  
Whats not inside of me..the devil

I came I saw I made it possible  
I've done it all its not just physical  
Here they come here they come take away my friends  
I will not follow them  
Here they come here they come take away my friends  
This is not where the story ends  
No hell no more light I wont sell my only life  
You'll pray hell you wont decide it  
Pray hell you wont decide it  
You wont decide

---
